

At **Capita Architecture**, we strive for well-balanced economic, social and ecological performance from the business as a whole and the individuals who work for us. We look **beyond legal compliance** and profit considerations to explore **human potential**, **social responsibility** and **environmental concerns**. These guiding principles are fully integrated and embedded into every aspect of the practice.

Our strategy:

Marketplace

Delivering added value for our clients
Continually aspiring to design excellence
Strategic partnerships with our clients and suppliers

People

Creating a supportive, rewarding and inspiring environment for employees
Employer supported volunteering
Awards and recognition

Environment

Responsible business practices
Zero Carbon targets
Sustainable Design Lab for research and development

Community

Making a positive impact on communities we work in
Supporting local, global and architectural communities

1.pro bono work//2.supporting global communities//3.staff away days and awards//4.design debates//5.delivering excellence for our clients//6.inspiring studio environments//
