state of the art structural engineering design

## STATE OF THE ART STRUCTURAL ENGINEERING DESIGN

Capita Bobrowski is working at the leading edge of sports building design and has experience of every kind of sporting facility including stadia, grandstands, aquatic and leisure centres as well as horseracing facilities and cricket grounds.

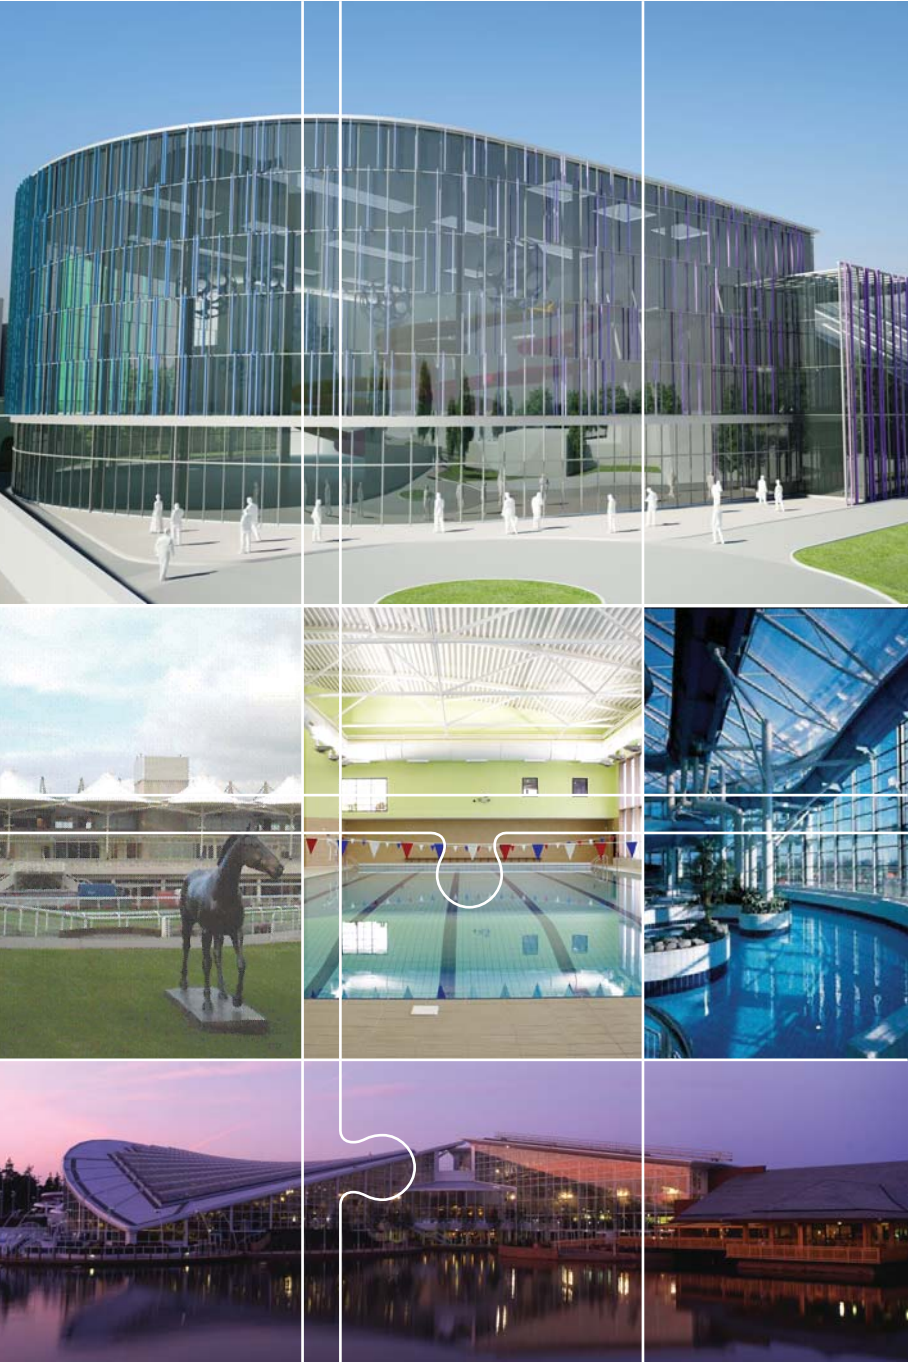

Capita Bobrowski has worked on a number of prestigious sports projects in the UK and worldwide. Our innovations in sports building's design have included the Structural Steel Design Award winning Wimbledon Centre Court retractable roof which ensures spectator comfort, greater flexibility and usability of the venue and the Duchess's Stand at Epsom Racecourse, home of the iconic Derby Race.
