

Services Schools

Safe Environments Efficient Facilities Responsive Services

Maintaining an inspiring learning environment can be challenging; issues such as building repairs, legal requirements and maintenance costs are demanding and often take up valuable time.

Services4Schools is a menu of building and management services which provide guidance, reassurance and cost savings to headteachers.

Choose the services that matter most from our 'pick n mix' menu and let us manage them for you...leaving you to focus on learning delivery.

"For busy headteachers, particularly those with no experience in building related matters, the team is a must; they take on the responsibility and risk in managing a school building which can be a huge relief"

Helen Olive
